

# Select Bibliography of Higher Education in Canada

R. Harris, Marcel de Grandpré, Richard Greene\*

## RECENT PUBLICATIONS ON CANADIAN EDUCATION

A selected list of approximately 100 titles bearing on post-secondary education in Canada will appear in each issue of *Stoa*. These bibliographies are intended to provide a continuing supplement to the three volumes which have been published by the University of Toronto Press: *A Bibliography of Higher Education in Canada* (1960), the *1965 Supplement to A Bibliography of Higher Education*, and the recently published *1971 Supplement*.

The *1971 Supplement* represented an attempt to provide a complete listing of books, articles, theses and reports which appeared during the six-year period ending December 31, 1969; but it also listed items published during the first three months of 1970. The list which follows here is limited to additional books, articles and reports published during the last nine months of 1970. The next two issues of *Stoa* will contain titles published in 1971.

The items which appear in the *Stoa* lists are classified in accordance with the categories adopted in the *1971 Supplement*. Unless the title is self-explanatory a brief annotation normally will be supplied. (Owing to space limitations in this issue annotations have been omitted.) When no title is included in a given classification the classification itself is omitted. E.g. *below* 1. B : , 2. A.
